Announcing the latest awardees of the Oncomine Clinical Research Grant Program

Congratulations to the latest recipients of the Oncomine™ Clinical Research Grant, recognizing exceptional research from the Melanoma Institute Australia, the University of Turin in Italy, and Atrium Health Wake Forest Baptist Medical Center. [Learn more about the awardees and their projects at oncomine.com/grants](#) and read more from past Oncomine grant awardees in this [recent blog post](#).

The Oncomine Solutions Community

Becoming a member of our global network of Oncomine™ Solutions customers means so much more than using our products. As a member of our valued community, you have access to bespoke service and support options, opportunities for clinical research funding, and engagement and collaboration potential to truly make the most out of your experience with our end-to-end NGS solutions. [Learn more about the Oncomine community.](#)

A standard of support that's a cut above

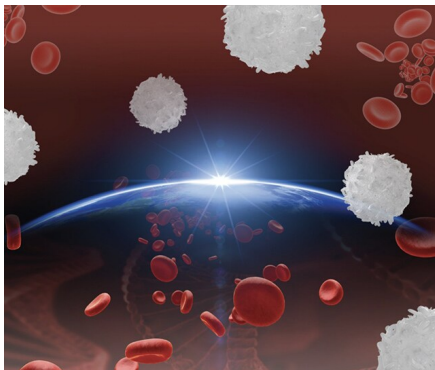

When Bernhardt Laboratories was notified by local authorities that their lab had caught fire in the middle of the night, they turned to their Thermo Fisher Scientific Service and Support representatives for help in urgently establishing a satellite lab. [Hear about Bernhardt Laboratories' powerful experience in a video interview](#) and learn more about the stellar service and support offerings for OncoPrint Solutions customers.

Upcoming events

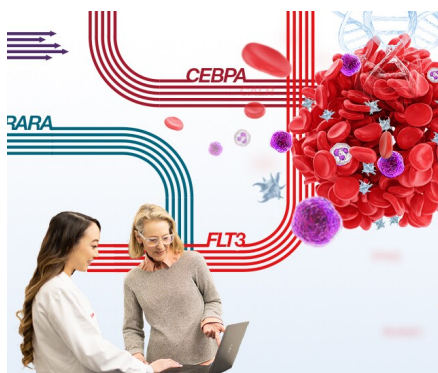

AMP 2023

We are proud to partner with the Association for Molecular Pathology (AMP) for the 2023 Annual Meeting and Expo in Salt Lake City, Utah from November 15–18. Attend our corporate workshops on November 15 between 9 a.m.–12 p.m. MT to learn about the latest advances in next-generation sequencing (NGS) for oncology applications. Additionally, engage with authors during our poster presentations on a variety of oncology research topics on November 17 and 18, from 9–10 a.m. MT. See the full details at thermofisher.com/AMP

ISLB 2023

[Join Thermo Fisher at the International Society of Liquid Biopsy \(ISLB\) 5th Annual Congress](#) in Madrid, Spain on November 21, for a special symposium, “Unlocking the potential of Liquid Biopsy: Current and future uses of molecular profiling.” Don’t forget to visit us at Booth #16 to speak to our representatives about liquid biopsy solutions for cancer research applications.

ASH 2023

Join us during the 65th American Society of Hematology (ASH) Annual Meeting and Exposition in San Diego, CA from December 9–11. Learn how Thermo Fisher can help simplify your path to answers in the study of myeloid and lymphoid cancers with rapid, automated next-generation sequencing (NGS) at Booth 727. Learn more at oncomine.com/ASH2023.

Upcoming webinars

[Webinar: Multicenter study of the Oncomine Comprehensive Assay Plus for Local Comprehensive Molecular Profiling](#)

December 11, 2023
